College of Arts and Sciences Core requirements:

The College Core requires that any student seeking a degree from any program in the College of Arts and Sciences would be expected to follow the policies listed below.

All Arts & Sciences Undergraduate degrees would be subject to the following policies:

12. Complete the Freshman Composition sequence (or its equivalent, ENGL1301 and 1302) requirements with no less than a "C". Students must continually be enrolled in an English Composition course until this requirement is met. *This is currently in the Catalog and is no change to requirements.*

13. Students must complete 6 hours of mathematics/statistics and continually be enrolled in a Mathematics course until this requirement is met. *The second part of this is new.*

14. Complete all department courses required in their major with at least a grade of "C." *Not new.*

15. Any student pursuing a BA degree must successfully complete both a Literature and a Philosophy Course. (This raises the BA core by 3 hours in A&S to 45 leaving 12 hours of electives in the BA-POLS degree.)

16. Any student pursuing a BS degree must successfully complete 8 hours of laboratory science (biology, chemistry, geology or physics). (This raises the BS core by 2 hours in A&S to 44 leaving 13 hours of electives in the BS-POLS degree.)

* Students must take ENGL 1302 or ENGL 1374 to take any Sophomore English Literature course. ENGL 2300 is meant as an option for those skipping 1302 or 1374 in order to take science labs and another math course. These courses will require only English 1301. Likewise PHIL 1370, and 2306 will require ENGL 1301 but not ENGL 1302 or 1374. (N/A: POLS adopted Option #11.)

** Students cannot take 3 one hour classes to satisfy any of the optional requirements.
